Pinewood Natural Health Centre

*Inspiring your journey to change.*

# Welcome!

Congratulations on your decision to take the first steps to invest in your health and wellbeing.

You may have heard about Pinewood Natural Health Centre from a family member, friend or colleague; the majority of individuals and families are referred to us by our amazing patients! In fact, patients who have been with Pinewood for many years have become part of our extended family. Like you, they value their health and vitality and are reaching out to help us build healthier families and communities. We invite you to join our mission, *"To educate, support and inspire our patients on their journey to superior health and vitality so they can live their best life. "*

Or, perhaps you found us online. If so, you have likely explored our website to learn about our services, you have read about our dedicated health care team, and you really have the commitment to improve your health. That's why you're perfect for Pinewood. We love working with patients like you who want to improve your health, because an active vital life is important to you!

## What to Expect?

Your first appointment is typically much longer than you may have experienced with a conventional Medical Doctor. Your Naturopathic Doctor will spend the majority of the first visit listening to you as together you review your health concerns, health history, lifestyle habits, stress level, work and social life. You will also discuss any previous treatments, therapies, medications and supplements and how they worked for you. Your Naturopathic Doctor will then conduct a physical exam. Based on your individual situation you may be given initial treatment recommendations to follow until your next visit.

Your second visit provides an opportunity to review your health goals and how we can support you to achieve them based on your history. Your Naturopathic Doctor may recommend diagnostic testing, that is unique to the field of naturopathic medicine, to uncover trends and patterns that point to why you are experiencing a particular symptom and to provide direction on the best preventative care for you.

These first two important visits help define the starting point on your journey to great health. Follow-up visits are scheduled based on your individual needs to allow for treatment modifications as your health continues to improve. It is important to realize that it takes time to feel better using naturopathic medicine, isn't it? You may notice changes early on or it may take a while depending on the complexity of your health. We ask you to be patient! As a team, with consistent effort from you and recommendations from your Naturopathic Doctor, you will continually move closer to enjoying the good health and vitality you deserve.

## Now, let's get started!

To begin we need to know about you and your health history. Please take some time to thoroughly complete the following Naturopathic Intake Form. Bring your completed forms with you to your first appointment. For security reasons, please do not email your completed form to us; we want to protect your privacy. It is also helpful to bring any recent (in last 6 months) blood or diagnostic results and the actual bottles of any medications or supplements you are currently taking. We know you're eager to get started on your journey to great health, so you might like to visit our website and read some of the many informative posts in our Pinewood Blog.

We look forward to meeting you!

*Your team of Naturopathic Doctors*

# STATEMENT OF ACKNOWLEDGEMENT AND CONSENT TO EXAMINATION AND TREATMENT

**N.B. This form must be signed before any treatment will be rendered.**

Patient Name: _____ _____ Date of Birth: _____
First Name Last Name dd / mm / yyyy

Address: _____ City/Town: _____

Province: _____ Postal Code: _____ Phone: _____

Naturopathic medicine uses non-invasive methods of assessing the bodily functions and the use of natural therapeutics for correction. The methods used at this clinic include the use of FUNCTIONAL BIOMETRY, such as German electro-acupuncture feedback techniques and aid in assessment with structural, nutritional, electromagnetic and lifestyle techniques as therapeutic methods.

The current health care system in Ontario is under scrutiny. In order to clarify my position as your health care practitioner, and our mutual responsibilities in your health care, I ask for your cooperation in signing this statement of acknowledgement, in so doing:

1. That you understand that I am a Naturopathic Doctor, and not a conventional medical doctor; that I use non-invasive, natural methods of assessment and treatment of body dysfunctions. That any treatment you receive is not mutually exclusive from any treatment or advice you may now be receiving or may receive in the future from another licensed health care provider.

2. That you understand that methods that I may use have a proven clinical foundation, yet may not be accepted by standard (allopathic) medicine.

3. That you understand that I am required by my licensing board to perform a physical examination on each new patient. This will be adhered to unless a full report is sent by the referring practitioner and that report is deemed acceptable.

4. That you understand that treatment and/or referral to other health practitioners is based on the assessment of your health, revealed through personal history, physical examination, laboratory testing and other appropriate methods of evaluation, including electromagnetic evaluation. Note that you may be requested to see other Naturopathic Doctors at Pinewood to provide diagnostic and treatment strategies as deemed necessary or appropriate by your primary Naturopathic Doctor. You are at liberty to seek or continue medical care from a physician or surgeon or other health care provider qualified to practice in Ontario.

5. That you understand I reserve the right to determine which cases fall outside my scope of practice, in which event the appropriate referral will be recommended.

6. That you are not an agent of any private or government agency attempting to gather information without so stating your intentions.

7. That while changes in dietary habits are not an absolute prerequisite for treatment, that you understand that failure to follow sound nutritional, exercise, and lifestyle programs could undermine the expected results.

8. That you are accepting or rejecting this care of your own free will.

9. That the supplements/products sold to you through our dispensary are for your personal use only and are to be taken according to the instructions outlined on the Prescription/Recommendation Form I provide to you at your consultations.

   The supplements/products are available through our dispensary as a convenience to you. You may choose to purchase the supplements/products elsewhere being diligent to purchase the correct formula/dose that I have prescribed/recommended.

10. That you understand that the ultimate responsibility for your health care is your own, and that I am here to support you in this. I reserve the right to discontinue my services where it is apparent that your expectations and what I can provide are not in agreement.

11. That you understand, if you are a patient of Dr. Michael Rahman, ND, there is a $25.00 fee for non-urgent email and phone inquiries and a $45.00 fee for prescription repeat requests from your pharmacy when you are overdue for a follow-up consultation.

12. That you understand that all fees for services and supplements/products are payable at the time of the appointment/purchase by the patient or the guardian. If you arrange to have Pinewood mail your supplements/products to you (in Canada only) you will be billed for the postage/shipping fees and acknowledge you are financially responsible for this cost. **That there is a fee for completing insurance forms, letter writing and telephone consultations. Notice of 24 hours is required for appointment cancellations, otherwise you will be charged an missed appointment fee of $35.00 - $50.00 depending on the length of your appointment.** Any special financial arrangements may be made clear in advance and documented in your chart.
